

**GOOD NEIGHBOR AGREEMENT REGARDING A  
TEMPORARY MANAGED COMMUNITY  
LOCATED AT  
621 WEST WESLEY AVENUE, DENVER, COLORADO 80223**

**LA PAZ MICRO-COMMUNITY**

This Good Neighbor Agreement (the “Agreement” or “GNA”) is entered into by and between the Overland Park Neighborhood Association, Neighbors of Overland North, and immediate neighbors and businesses, collectively referred to as “Neighbors”, and Colorado Collaborative Village (CVC), operating La Paz Micro-Community, located at 621 West Wesley Avenue, (“La Paz”). Together, the Neighbors and CVC are referred to as the “Parties”<sup>1</sup>. This document contains agreed upon operating intentions for making the micro-community a success for its participants and for the immediate neighborhood. Although not a GNA signatory, the City and County of Denver has publicly made certain commitments referred to in the GNA, and neighbors have documented their desire for more protective measures: these are noted where they occur.

**Neighborhood Background**

The Overland neighborhood is a diverse mixed-use segment of southwest Denver, historically impacted when the City and County of Denver has found it useful to the City’s overall operations. Past expansion of traffic arteries Evans Avenue and Santa Fe Drive has effectively cut the neighborhood into quarters with high volume traffic, leaving reduced communication between its quadrants.

Within Overland's smallest quadrant, in a single-family home residential setting, Mayor Mike Johnston’s "House1000" homelessness program has built the La Paz Micro-Community, a tiny-home facility designed to transitionally shelter up to 120 formerly camping individuals (for a maximum of up to four years, per Denver zoning code). The site will be managed by Colorado Village Cooperative (CVC), a non-profit with several years’ experience with similar facilities. Although many neighbors strongly resisted this under-served location, the large project size, and its proximity to families with children, La Paz has already welcomed its first Program Participants.

The challenge facing existing residents is to accept and normalize neighbor-to-neighbor relations with a sudden increase in their quadrant’s population, eventually amounting to nearly 50% more people in a six square block area. Neighbors confront the reality that "House1000" program success – eventually transitioning La Paz Participants into permanent housing – can be enhanced by their supportive and neighborly interaction with this new population.

Boundaries of the Overland Park Neighborhood Association (OPNA) contain the SFMC site, and boundaries of Neighbors of Overland North (NOON) lie just to north of the quadrant containing the

<sup>1</sup> This agreement is between the Colorado Village Collaborative and a volunteer group of stakeholder neighbors, chosen by the City of Denver. The neighbors involved are not parties to any of the contracts related to the La Paz site and are involved strictly in a volunteer capacity. Feedback was sought from neighbors throughout the collaborative process of GNA construction. Feedback will continue to be solicited throughout the Good Neighbor Committee process.

Therefore, the neighborhood volunteers listed above are not liable for actions resulting from the behavior of residents of the La Paz micro-community, impacts to the neighborhood as the result of items contained within the Good Neighbor Agreement, or the dissatisfaction of neighbors regarding how well the GNA represents their interests.

site. To help frame and facilitate this dramatic adjustment, a Good Neighbor Agreement is hereby enacted between these two most affected Registered Neighborhood Associations in the area and site manager, Colorado Village Cooperative. As yet there is no negotiated arrangement involving other jurisdictional entities – including the City and County of Denver, the Denver Police Department and Denver Parks and Recreation – to further define responsibilities regarding Mayor Johnston’s “House1000” Plan.

### **Colorado Village Collaborative Background**

Colorado Village Collaborative (CVC) exists to create and operate transformational alternative-sheltering communities in partnership with people coming from homelessness. With an empowerment-based and anti-oppressive lens, CVC reaches across sectors to address the current housing crisis. Together with our partners, we design and produce alternative shelter that is affordable, quick and easy to build, community-centric, and environmentally friendly.

CVC lives into and brings with them the following values:

Community: We provide a safe and stable environment for our community members and staff. We build trust and understanding within our organization and the surrounding community. We commit to developing and maintaining relationships that promote an end to the social isolation that many people experiencing homelessness face.

Collaboration: We are one team with multiple programs working together to provide the best opportunities for our community. We partner with other organizations to deliver services and have the greatest impact.

Creativity: We meet the needs of a specific group of unhoused individuals, filling a gap in the services currently provided for this group, while remaining person-focused and meeting individuals where they are.

Honor Lived Experience: Our community members have a voice in how they experience our communities. We commit to hiring staff with lived experience to ensure the creation of a de-stigmatizing safe and brave spaces.

Equity and Social Justice: We aim to create inclusive safe spaces for all people regardless of race, color, gender identity and/or expression, sexual orientation, or disability.

CVC is committed to reaching an agreement with its Overland neighbors and community to ensure a positive quality of life for both the La Paz Micro-Community Program Participants and those living in the immediate area.

Representatives of the immediate neighborhood and businesses are also committed to working with CVC to ensure a positive and supportive relationship while limiting potential problematic impacts.

To accomplish this, we have discussed and defined the following points of agreement. This Good Neighbor Agreement (GNA) describes the agreements and expectations established and agreed to by Colorado Village Collaborative and Neighbors. The goals of this Good Neighbor Agreement (GNA) are to provide a means for both CVC and adjacent neighbors<sup>2</sup> to work effectively together so CVC,

<sup>2</sup> Adjacent neighbors in this document generally refers to neighbors and businesses within a 2-3 block area surrounding LaPaz Community.

the individuals they serve, and the adjacent neighbors are able to experience the quality of life necessary to enjoy comfort and safety in their neighborhood.

This document defines the intent and agreement of all parties represented, by clearly identifying the expectations and responsibilities for CVC and the Neighbors in achieving their shared goals.

Key to achieving this is the Parties combined commitment to:

- Maintaining a peaceful, safe and beautiful Overland neighborhood.
- Establishing and keeping an open line of communication among the Parties.
- Developing a process to address questions, concerns and solve challenges.
- Providing a safe and welcoming environment to La Paz program Participants.
- Enhancing neighborly relations among program Participants, property owners, neighbors, visitors and businesses living in, working in and visiting the area.
- Cultivating voluntary opportunities for Participants and other neighbors to perform service, enjoy events and share experiences.

WE, THE PARTIES agree to the following:

To achieve this a Good Neighbor Committee (“GNC”) will be formed, comprised of the representatives listed in bullet (b) below. Dear Steve:

My administration is fully committed to ensuring the safety and success of our House1000 sites for both program participants and the surrounding community. This commitment to responding to and addressing the challenges of neighborhoods has been abundantly clear in the 60 neighborhood meetings that I attended about the House1000 plan during the first 6 months of my administration. In order to ensure the safety and success of neighborhoods adjacent to House1000 sites, we have taken proactive steps to establish systems that will alert our city agencies to any incidents that may occur in the surrounding communities. Additionally, we are taking proactive steps to increase police patrol and response in these neighborhoods. Please find an outline of these efforts below.

**We have established electronic geofencing through 311.** This geofencing provides real-time alerts of any 311 complaints within 1000 feet of a House1000 site directly to the Director of Encampment Response. Complaints within these geofenced locations are prioritized for immediate response. My staff meets daily with the Denver Police Department and other city agencies to track and ensure complaints within these geofenced areas have received response on a daily basis.

**We are committed to responding to incidents immediately.** Given the immediate alerts to the Director of Encampment Response, and the daily coordination calls mentioned above, any encampment related activities within 1000 feet of any House1000 site will receive response within 24 hours.

**We are committed to evaluating data and assessing response times as observed by adjacent communities.** As the Good Neighbor Committees meet on a regular basis, we expect these committees to compile their own record of 311 complaints and track their understanding of response times. My team is eager to receive the Good Neighbor Committees' feedback in order to understand the success of this process and the ways in which the process can continue to be improved.

**Denver Police will increase patrols in adjacent neighborhoods.** The Denver Police Department is fully behind this effort and poised to ensure the health and safety of neighborhoods welcoming people previously experiencing homelessness. Every Denver resident deserves to live in a safe and healthy neighborhood and DPD will stand ready to address any challenges that may arise as the Department works to advance our broader city-wide goals around crime-reduction.

Addressing homelessness comprehensively and maintaining neighborhood safety is a difficult but solvable problem. Collectively, we can solve that problem. The solutions outlined above will enable our city agencies to respond to any issues that might arise in a timely and effective manner. These steps affirm the reality that my administration is completely committed to the success of these sites for both the program participants and their neighbors. We are committed to ensuring that the House1000 sites are safe, fully staffed, and secure for the program participants and staff, and that surrounding neighborhoods remain beautiful and welcoming places to live, work, and play.

We look forward to ongoing conversations with the community and ensuring appropriate response times that promote safety and success for people in every corner of our great city.

Sincerely,
